About Me

I'm a motivated, adaptable and responsible Multimedia Designer student who is currently looking for a front end development Internship. I've experience designing different infographic elements using Adobe software, to be further implemented in webpages or web applications. I've insight into HTML, CSS and Javascript since it was part of my education programm too. I also have experience in sales(Customer service/ E-Commerce) along with my Danish that is improving day by day since i work with Danish colleagues at my current job in a butik. I have good communication skills and i know how to be a proactive team member.
